

DMC Licence Update

Performed by Customer

 Prior to licence update, customers are required to generate C2V file and send it back Administrator.

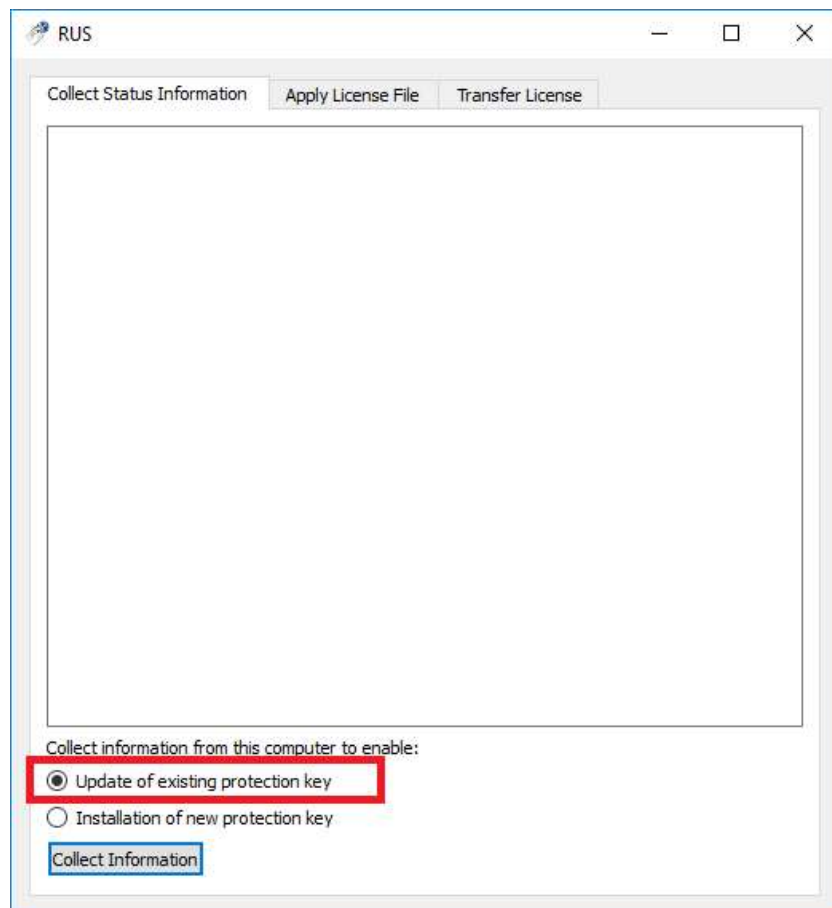

[Generate C2V File]

Step 1: Insert dongle key

Step 2: Execute **RUS_DBIX.exe**

Step 3: Click **Update of existing protection key** and click on **Collect Information**.

Step 4: Save the **C2V** file and send it to Administrator.

 The C2V file is forwarded to Administrator perform licence update at Administrator end. A V2C file will be generated.

 Administrator generates V2C file and send to customer. Customer receive the V2C file to perform the licence update.

[Update Licences]

Step 1: Insert dongle key

Step 2: Execute **RUS_DBIX.exe**

Step 3: Click on **Apply License File** tab

Step 4: Under Update File field, click button to browse the **V2C** file.
